

**We were very lucky to have discovered the services of Richard Mcphee as a Cabinet Maker who specialises in restoration of Fine Antique Furniture. I first used Richard in the early 90's to restore a Georgian Partners desk in my office and have subsequently used him on frequent occasions. He has always proved to be very sensitive and his attention to detail and quality of work is in my opinion second to none. We are very fortunate to have someone as skilled and talented as Richard living and working in Norwich.**
